

BSS 300

SANDWICH SYNTHETIC TRACK SYSTEM

Take your system to the next level with the BSS 300 - a paved-in-place synthetic surface of impermeable design.

Built on **more than 30 years of Beynon experience** and backed by a five year warranty, this dual durometer system features a polyurethane-bound black rubber base mat, topped with a two-component polyurethane seal coat. The surface is finished with a flow-applied layer of polyurethane and your choice of embedded EPDM granules or our state-of-the-art encapsulated texture. The result is a durable, resilient all-weather surface that meets IAAF performance standards for athletic tracks.

**RESILIENT. DURABLE.
IMPERMEABLE.
IAAF CERTIFIED.**

The paved-in-place installation process creates a uniform monolithic surface

Your choice of embedded or encapsulated texture is applied, providing all-weather usage and minimizing granule attrition

The polyurethane-bound, black rubber mat provides optimum shock absorption
